

TYLER ANDERSON

Electrician | Commercial & Residential | Apprentice to Journeyman-Level

Columbus, OH | (614) 555-0177 | tyler.anderson@email.com | [linkedin.com/in/tyleranderson-electrician](https://www.linkedin.com/in/tyleranderson-electrician)

SUMMARY

Electrician with 3.5 years of experience in commercial and residential electrical installation, service, and troubleshooting. Completed 7,000+ on-the-job training hours in a state-registered apprenticeship, installed and terminated systems on projects up to \$5M, and maintained a zero-citation safety record. Skilled in conduit bending, wiring, panel installation, blueprint reading, and National Electrical Code (NEC) compliance.

SKILLS

Electrical Work: Conduit Bending (EMT, Rigid), Wire Pulling & Termination, Panel & Switchgear Installation, Lighting Controls, Service Upgrades, Troubleshooting & Repair, Fire Alarm Basics

Codes & Safety: NEC (2020/2023), Blueprint & Schematic Reading, Load Calculations, Lockout/Tagout (LOTO), Arc-Flash Awareness, OSHA Safety, PPE

Tools & Equipment: Multimeter, Megohmmeter, Clamp Meter, Bender, Power Tools, Lifts, Revit (Basics)

EXPERIENCE

Apprentice Electrician (4th-Year)

Jun 2023 – Present

Buckeye Electric Contractors — Columbus, OH

- Install and terminate branch circuits, panels, lighting, and power distribution on commercial projects up to \$5M under journeyman supervision.
- Bend and install 1,000+ feet of EMT and rigid conduit per week to NEC standards with minimal rework.
- Troubleshoot and repair lighting, control, and motor circuits; reduced service-call callbacks by 22%.
- Read and follow electrical drawings and one-line diagrams; coordinate with plumbing, HVAC, and framing crews on tight schedules.
- Maintained a zero-citation safety record on 12 job sites; completed 80+ hours of OSHA-aligned safety training.

Apprentice Electrician (1st–3rd Year)

Jul 2022 – May 2023

Central Ohio Residential Electric — Dublin, OH

- Wired 40+ new residential homes, including rough-in, trim-out, and panel installation.
- Performed service upgrades from 100A to 200A for 35 homes and installed EV-charging circuits.
- Completed 576 classroom hours of electrical theory, code, and safety through the apprenticeship program.
- Assisted with inspections and corrected punch-list items with 98% first-pass approval.

APPRENTICESHIP

State-registered 4-year apprenticeship: 7,000+ OJT hours and 576 related-instruction hours completed; Journeyman licensing exam scheduled.
