About me

General practitioner with 4 years of post-qualification experience in a multi-professional primary care centre. Manages a list of about 1,300 patients of all ages, with a focus on diabetes, hypertension, COPD, women's health and paediatrics. Experienced in minor procedures, home visits and out-of-hours care. Raised vaccination coverage and chronic-disease control through proactive recall systems. Seeking a GP post in an international European primary care team.

Work experience

General Practitioner

11/2022 – Present

Maison de Santé Part-Dieu, Lyon, France · Business or sector: primary healthcare, multi-professional practice

- See **22–28 patients per day** (adults, children, older adults), with a list of around **1,300 registered patients**.
- Manage diabetes, hypertension, COPD and heart failure; raised the share of diabetic patients on target HbA1c from **65% to 78%** through structured recall.
- Lifted childhood and flu vaccination coverage in the practice list from **71% to 86%**.
- Perform minor procedures (suturing, joint injections, skin lesion removal), contraception care, and **home visits**; cover on-call care (garde) 1 weekend in 6.
- Work with nurses, physiotherapists and pharmacists; teach 2 medical students per semester.

Locum GP and Emergency Doctor

11/2021 – 10/2022

Hospices Civils de Lyon (emergency unit) and local practices, France · Business or sector: emergency and primary care

- Treated acute illness and minor trauma in the emergency unit (about 40 patients per shift) and covered GP practices as locum.
- Triaged patients, ordered diagnostics and referred to specialists; documented to ESC and HAS guidance.

Education and training

DES in General Medicine (specialty training)

2018 – 2021

Université Claude Bernard Lyon 1, France · EQF level 8 · Thesis: hypertension control in primary care

Doctor of Medicine (MD)

2012 – 2018

Université Claude Bernard Lyon 1, France · EQF level 7 · Directive 2005/36/EC
